MOELLER STONE CARE

PRODUCT SPECIFICATION

HMK® S243 - PORCELAIN TILE IMPREGNATOR

- **Protection and maintenance treatment for all unglazed, honed and polished porcelain tiles.**
 - **Reduces the penetration of water, dirt, oil and grease.**
 - **For interior and exterior use.**
 - **Food hygiene compliant.**

HMK® S243 is a ready to use solvent based impregnator that reduces the penetration of water, dirt, oil and grease into polished, honed and unglazed porcelain tiles. The color and structure of the surface is only minimally affected. For interior and exterior use.

Instructions: If under floor heating exists, switch it off and allow the surface to cool. Clean surface thoroughly and let it dry (max residual moisture of 2-4%). Apply HMK® S243 generously and evenly using a soft paintbrush, roller with short fibres or HMK® Z950-Z951 Application Brushes. One or two generous applications are usually sufficient. Remove excess with a paper towel before it dries. Smears left after the application process can be loosened and wiped off by using a soft clean cloth moistened with some more HMK® S243.

To clean surface thoroughly before treatment use HMK® R161 Porcelain Tile Intensive Cleaner.

For regular cleaning and continued protection use HMK® P315 Porcelain Tile Care.

Once dry the residual material is not harmful to health.

Drying time: Dependent upon room temperature and ventilation, around 4 to 6 hours.

Important: Do not walk on the treated surface until treatment is complete. Protect surface from rain and humidity for 12 hours. Do not apply to rubber, plastics, lacquered or varnished surfaces and solvent intolerant materials. Remove all foodstuffs from the area to be treated before work is commenced.

Coverage: About 5-20m²/litre.

Warning: Chemical product. Contains turpentine substitute. Flammable. Keep away from heat, sparks and flame. Harmful or fatal if swallowed or inhaled. Ensure the area to be treated is adequately ventilated. Avoid eye/skin contact. If exposed wash/flush with water and seek medical attention immediately. Keep out of the reach of children. See Material Safety Data Sheet for more detailed information.

Packaging: 12 x 1 litre bottles/box; 2 x 5 litre cans/box; 2 x 10 litre cans/box.

Storage: Store in a cool place and keep lid tightly closed.

Testing: Always test the product in an inconspicuous area to evaluate suitability, coverage and performance. Do not use the product in temperatures below 12° and above 25°C.

Limitation of liability: The liability of HMK® Moeller Stone Care for defective products and any claims for damages whatsoever is limited to the purchase price of the products. HMK® Moeller Stone Care shall not be liable for any consequential damages. No other warranty or representation is made or implied.
